

● Logistic Planning Plant Administration Division 2021 - 2023

Responsible for planning material and non-material requirements based on production schedules and user requests, including inventory management to ensure stock availability. Monitored ordering processes, deliveries through the SAP system to ensure timely execution. Conducted data analysis and visualization using Microsoft Excel and Power BI to monitor production performance and support decision making.

● Warehouse Consumable Jun - Aug 2023

Perform GR and GI processes in SAP ERP, ensuring that orders and deliveries match. Provide logistics support to ensure efficient material flow and on-time delivery to customers.

Achivements and Award

1st Konvensi QCC SS Internal Divisi 35 2021

Reduced the lead time of the Special Order (SO) creation process by adding a document upload feature to the JIT System menu. This innovation reduces excessive manual processes, lowers workload, and improves efficiency in the SO creation process.

3rd Konvensi QCC SS Internal Divisi 37 2023

Make ADM as Smart and Green Manufacturing by developing a forecast distribution application for suppliers to prevent delays, reduce lead time and manual email workload, and minimize sending errors, resulting in a cost reduction of IDR 52.536 million per year.

Finalist of Konvensi CBI PT Astra Daihatsu Motor 2023

The CBI Competition using the design thinking method introduced the JUSCERIA program, which increased the I CARE Index from 57% (2020) to 86% (2023) to improve employee culture.
